S. A. GEORGE & CO. Electrotypers and Printers

TO QUR CORRESPONDENTS.

E again take pleasure in offering our revised and enlarged Catalogue of Bulbs, Plants, Small Frurs, etc., for the Autumn of 1878. Our list will be found to embrace all the leading and most desirable varieties, it being our constant aim to introduce and send out only such that have deserving merits. The Hyacinths will be found worthy of special attention, having been personally selected to secure the essential qualities of size, brilliant colors and free blooming. The single varieties are especially recommended for forcing into early bloom in glasses. The collection of Tulips should not be overlooked; their exceedingly brilliant colored flowers are attractive in every garden or house.

QUALITY OF BULBS.—The past season in Holland having been favorable to the growth and development of the Hyacinth, etc., our customers may depend on receiving the very best roots obtainable. We import direct from the best growers in Holland, which is determined by personal visits to their establishments. Our first and largest importation, which we expect about September 10, by the American Steamship Line, is from growers doing no business in America; this gives us the benefit of the first execution of our orders, and the first choice from their very large stock, while they are obliged to ship our goods at least a fortnight before their home business commences. These importations are entirely different from the refuse sent out by growers having no home trade, who put up their goods in assorted cases for auction, or offer them by the case as cheap, but which are in reality dear, as they are rarely true to name or color, and frequently prove unsound. Many sorts, such as Lilies, Gladiolus and Greenhouse bulbs, are grown at our Nursery, and are of fine quality.

OUR PRICES will be found very low, and in view of the increased cost of mailing we have determined to adhere to old prices, excepting in the delivering of Hyacinths, etc., by the dozen and hundred; a schedule of prices, delivered pre-paid by Express or Mail, will be found below. We only deliver free at our low catalogue price when the bulbs are ordered in large quantities at retail by the price per root. The double-increase in cost of mailing Bulbs, etc., since March 3d, 1875, compels us to adopt this rule.

BULBS BY MAIL OR EXPRESS.—All the Bulbs noted in this Catalogue are delivered FREE at the catalogue price per piece, dozen and hundred, excepting Hyacinths, Polyanthus Narcissus, Crown Imperials and Lilies. When ordered at dozen and hundred prices the additional charge of 25 cents per dozen and \$2.00 per hundred should be remitted to partly cover the expense of delivering and insure pre-payment.

PLANTS BY MAIL, POST-PAID.—No order under one dollar will be filled, and only small plants can be sent. By our compact and light system of packing we send to all parts of the country in perfect condition; it is, however, always more satisfactory, when strong plants are desired and a quantity wanted, to forward by Express at the purchaser's expense. Our plant department is deserving of notice. We are continually receiving, propagating, and sending out all the new things as fast as they appear in this country and Europe, at the lowest possible price.

TERMS.—All orders from unknown correspondents must be accompanied by Post-Office Order, Draft, Pre-Paid Express Remittance, or instructions to Collect on Delivery, by Express. Collection charges to be paid by the purchaser. We decline sending Bulbs, Plants or perishable goods C. O. D. to distant parts, unless the order is guaranteed by your Express Agent, or a part remittance.

A LIBERAL DISCOUNT to all purchasers ordering in quantity, especially when the selection of varieties is left to our choice, and shipped at the expense of the purchaser.

CAUTION.—Do not buy of travelling agents or peddlers. Some of these impostors have represented themselves as our agents.—Beware of them. We employ no travelling agents. Send direct to head-quarters, and then you are sure of obtaining a genuine article at a moderate price.

ADDRESSES.—Be particular to write your name distinctly, with Post Office, County and State, also the nearest Express Office, when convenient to receive them in that way. Please notify us of any change of permanent address, in order that we may be able to forward our catalogues with regularity. Address,

No. 3.

FOR GARDEN AND HOUSE CULTURE.

Price per assortment, \$3.

6 Named Hyacinths, double and single.

12 Mixed Tulips, 3 Mixed Parrot Tulips.

25 Mixed Crocus. 3 Spanish Iris.

6 Narcissus, assorted. 6 Snowdrops.

2 Anemones. 2 Ranunculus.

2 Iris Germanica.

The above assortments (invariably our selection) will be mailed, upon a remittance (postage pre-paid), to any part of the United States.

Five Dollar Collection of Plants.

We will send, carefully packed, the following varieties (at price named) of Winter-flowering and Ornamental Plants; the varieties to be our selection. These plants are too large to send by mail, and will only be forwarded by express at purchasers' expense:

1 Chinese Azalea, large with buds.

Camellia Japonica,

2 Bouvardias of sorts.

Flowering Begonia.

1 Dracæna,

1 Calla, or Lily of the Nile.

1 Ixora.

Heliotrope.
 Chinese Primroses, 2 varieties.

1 Mahernia Odorata.

3 Winter-flowering Tea Roses. 4 Carnations.

1 Poinsettia.

HENRY A. DREER.

HARDY SPRING-FLOWERING

BULBOUS ROOTS.

Cheir Pature and Creatment.

PLANTED FROM OCTOBER TO DECEMBER.

Bulbs belong to a particular division of the vegetable kingdom; they are all, with scarcely a single exception, very ornamental, and hence desirable for the very large size of their flower in proportion to the entire plant, and for the brilliancy of their colors. By far the greater number of bulbs flower in the spring, and produce their flower stems immediately after they begin to grow; and shortly after they have flowered they cease growing and remain dormant and without leaves during the remainder of the year; hence, almost all bulbs require to be planted in the autumn-a fact which most amateurs are apt to overlook, and frequently send their orders out of season. They require a free, dry and somewhat rich soil, into which the roots may penetrate freely. A bulb is essentially a bud, and contains within itself the germs of the leaves and flowers which are to be produced the following season; thus, in one sense, they are of more easy culture than any other class of plants, because the germ being previously formed, and the nourishment being provided in the body of the bulb, it is only necessary to supply heat and moisture to cause them to develop; this is fully exemplified in the Hyacinth, Narcissus, Crocus, early Tulips, and some other bulbs, which can be flowered when placed over water in glasses or in wet moss. The Hyacinth is the especial favorite for forcing in glasses, and full directions for their management will be found under the head of Hyacinths.

SOIL.—The proper compost for Hyacinths, Tulips, Crown Imperials, Iris, Ranunculus, Anemones, Crocus, and many other bulbs, is the following: one-third sand, one-third well rotted cow manure, and one-third good garden mould.

TIME OF PLANTING.—The preferable season for planting all hardy bulbs, is from October to December; but they can be set out at any later time, so long as the bulbs remain sound.

DEPTH AND DISTANCE.—Hyacinths, large Lilies and Pæonias, should be planted at the depth of four inches; Crown Imperials and Polyanthus Narcissus, five inches; Tulips, Double Narcissus, Jonquils and Colchicums, three inches; Bulbous Iris, Crocus, small Fritillarias, Gladiolus Byzantinus and Snowdrops, two inches; Ranunculus and Anemones, one inch; always measuring from top of the bulb. The rows should be about ten inches apart, and the bulbs to be placed from four to eight inches apart in the rows, according to their size. As the cold weather approaches, give the bed a good covering of leaves, hay, old manure or tan, to prevent the frost from penetrating to the bulbs. Early in the spring, as soon as the shoots are pushing through it, the covering should be carefully removed, and the earth slightly stirred with a garden fork.

TAKING UP AND PRESERVING.—Take up Bulbous Roots about a month after the blossom is completely over, in the following manner: when the plants put on a yellowish decayed appearance, take up the roots, cut off the stem and foliage within an inch of the bulbs, but leave the fibres, etc., attached to them; spread them in an airy room for two or three weeks to dry, after which wrap each root carefully in paper, (as the air is very injurious to bulbs,) or cover them with perfectly dry sand.

Bulbs intended for blooming in pots during the winter season, should be planted during the months of October and November, and be left exposed to the open air (covered with a few inches of tan or soil) until they begin to freeze, and then be placed in the greenhouse or a room where fire is usually made. They will need, occasionally, moderate watering until they begin to grow, when they should have an abundance of air in mild weather, and plenty of water from the saucers whilst in a growing state; and should be exposed as much as possible to the sun, air and light to prevent the leaves from growing too long or becoming yellow.

THE HYACINTH.

Among hardy bulbs the Hyacinth stands (deservedly so) foremost on the list; it is not only a general favorite for the garden, but has become exceedingly popular as a winter flower, from the facility with which it may be forced into bloom, either in pots or glasses filled with water. Nothing can be more delightful, either for beauty or fragrance, than a stand of these lovely flowers, in the parlor or drawing-room, during the winter months.

METHOD OF BLOOMING HYACINTHS IN THE WINTER SEASON IN GLASSES.

For this purpose, Single Hyacinths and such as are designated earliest among the Double, are to be preferred. Single Hyacinths are generally held in less estimation than Double ones; their colors, however, are more vivid, and their bells, though smaller, are more numerous; some of the sorts are exquisitely beautiful; they are preferable for flowering in winter to most of the Double ones, as they bloom two or three weeks earlier and are very sweet scented.

Hyacinths intended for glasses should be placed in them during October and November, the glasses being previously filled with pure water, so that the bottom of the bulb may just touch the water; then place them for the first three or four weeks in a dark closet, box or cellar, to promote the shooting of the fibres, which should fill the glasses before exposing them to the sun, after which expose them to the light and sun gradually. If kept too light and warm at first, and before there is sufficient fibre, they will rarely flower well. They will bloom without any sun, but the colors of the flowers will be inferior. To insure vigorous growth a favorable exposure to light and occasional fresh air, when mild, are essential. The water should be changed as it becomes impure; draw the roots entirely out of the glasses, rinse off the fibres in clean water, and wash the inside of the glass well. Care should be taken that the water does not freeze, as it would not only burst the glass, but cause the fibres to decay. Whether the water is hard or soft, is not a matter of much consequence—soft is preferable—but must be perfectly clear to show the fibres to advantage.

Avoid a low water mark in the glasses by keeping it to a level with the base of each bulb. Never place the glasses upon a mantel-piece or shelf within the influence of fire heat during the process of

piece or shelf within the influence of fire heat during the process of growth. To stimulate and strengthen the growth, dissolve a pinch of sulphate of ammonia occasionally in the water after the bulbs are exposed to light.

THE TREATMENT OF HYACINTHS IN POTS.

For the growth of Hyacinths in pots, the most favorable planting season for early bloom is September, and for a succession, at intervals up to January. The size of pots is regulated by the space or convenience for placing them; when limited, and a rich massive effect is wished for, those of six or eight inches in diameter are recommended, in which three or four bulbs may be placed, but where more convenience is had, a succession of single or double bulbs in smaller pots may be admitted—two bulbs in each is very effective, and generally preferred; the colors of such may be regulated according to taste. In potting, use the soil as already described, each bulb should remain one-third above the surface of the soil, and the base of each bulb should rest upon a strata of clean river sand. After potting place them where intended to remain, upon a dry surface of ashes or sharp gravel, in the rotation of their intended periods of bloom, (each later potting plunged beyond the previous ones,) and thus arranged, water the whole well to imbed the bulbs firmly within the soil, allowing them to remain until the bulbs and surfaces are again dry (for one or two days); then cover the whole over to the depth of three or four inches with half-dried tan, sawdust, sand or soil, for six or eight weeks, in which position the preparatory root-growth is made, necessary to a vigorous development of their flowerscapes. After the period adverted to, less or more, the first potted bulbs may be taken up, the soil and sediment carefully brushed off, and removed to a gentle hot-bed, or a warm genial greenhouse or room where the bloom will progressively expand, care being taken to screen the leaf-growth made in darkness for a few days. A short difference of a week or fortnight between the periods of potting will produce a corresponding difference in the periods of bloom. They are very effective when massed in Fern Dishes, Window Boxes, or in pots ten inches in diameter and six inches deep, either all of one color or assorted according to fancy.

DOUBLE HYACINTHS,

For Beds and Border culture. Those marked early are suitable for growing in pots and glasses, and force very readily, but are not so early as the single varieties.

Size of Bulbs. Some of the most beautiful varieties of Hyacinths, especially among the double-flowering sorts, produce but small bulbs; but the small size of the bulb does not diminish or increase the size of the spike or the beauty of the flowers.

MIXED HYACINTHS.

The following varieties are for out-door culture, in beds, groups, borders, or for florists' cut flowers, grown in pots. Each color embraces many shades, from the lightest to the darkest; purchasers can have them either in double or single varieties, as may be desired.

MIXED HYACINTHS.—Continued. SEPARATE COLORS, WITHOUT NAMES.

15 cents each. \$1.50 per dozen. \$10 per hundred.

Red and pink, of shades, double. Blue and porcelain, " " White and rosy white, " " Red and pink, of shades, single. Blue and porcelain, " " White and rosy white, " " Yellow, " "

Double Yellow. 20 cents each. \$2.00 per dozen. \$14 per hundred.

EARLY ROMAN HYACINTHS.

The earliest for forcing, for florists' cut flowers, with small spikes of single white bells, bulbs usually producing several spikes. 15 cents. \$1.25 per dozen. \$8.00 per hundred.

MIXED MINIATURE HYACINTHS.

This variety is of interest to those who desire to cultivate them; the bulbs, being small, still produce fine spikes of flowers of various shades and colors, and can be grown in all the ways we recommend for other Hyacinths. 10 cents. \$1.00 per dozen.

MUSK AND OTHER HYACINTHS.

HYACINTHS IN PACKAGES.

The following are put up in packages, with names and colors marked, and are lower in price than the same quality of roots when selected from the catalogue. They are all choice, free-blooming varieties.

Packages with colors marked Nos. 6, 7, and 8 are unnamed.

No. 1.—\$1.25 per package. Contains 6 double.

CZAR NICHOLAS. Delicate rose.
REGINA VICTORIA. Dark rose.
ANNA MARIA. White, violet centre.
LA VIRGINITE. White, rose centre.
ENYOYE. Light blue, violet centre.
KING OF THE NETHERLANDS. Dark blue.

No. 2.—\$1.50 per package. Contains 6 double.

BOUQUET ROYAL. Rose, dark centre. BOUQUET TENDRE. Dark crimson. JENNY LIND. White, with purple eye. PRINCE OF WATERLOO. Pure white. BLOCKSBERG. POrcelain blue. MIGNON VAN DRIJFHOUT. Dark blue.

No. 3.—\$1.25 per package, Contains 6 single,

MARIA THERESIA. Deep rose, striped.
MONSIEUR DE FAESCH. Crimson.
THEMISTOCLES. Pure white.
VESTA. Rosy white.
BLUE AMARANT. Deep blue, light stripe.
LA PRECIEUSE. Light blue.

No. 4.—\$1.50 per package.

Contains 6 single.

LORD GRAY. Light rose. ROBERT STEIGER. Brilliant carmine. GRANDEUR A MERVEILLE. Rosy white. LA VESTALE. Pure white. MIMOSA. Deep violet changing to black. ORONDATES. Light blue, with dark stripe.

No. 5.—\$1.50 per package.

Contains 3 double and 3 single.

BOUQUET D'ORANGE. Orange. LORD WELLINGTON. Deep blue, lilac stripe, PRINCESSE ROYALE. Red, violet centre. GRAND VAINQUEUR. Snow white, KING OF HOLLAND. Orange. PRINCE OF SAXE WEIMER. Dark blue.

No. 6.—\$1.00 per package.

Contains 6 double.

Red and pink, blue and percelain, white and rosy white.

No. 7.—\$1.00 per package. Contains 6 single.

Red and pink, blue and porcelain, white and rosy white.

No. 8.—\$1.00 per package.

Contains 3 double and 3 single.

Red and pink, blue and porcelain, white and rosy white.

Hyacinths when ordered to be sent by mail require a remittance of 20 cents per dozen, and \$1.75 per hundred, additional for postage, but at the prices per single bulb, or in packages, are mailed or expressed free to any part of the United States.

TULIPS.

The Tulip is the most celebrated, popular, brilliant (and has always been prized by florists as the most decorative) and showy of spring flowers; and not simply for effect alone, as many of the choice kinds have a delicacy of pencilling and richness of tinting which excel all other plants. They are of easy culture, both in the conservatory or parlor, and the open garden. They will thrive in almost any soil. A sandy soil enriched with rotted cow-manure is, however, preferable; and being perfectly hardy, they can well claim a prominent rank among hardy bulbs.

*Their cultivation is yet so limited, that

Their cultivation is yet so limited, that their real beauty is not generally recognized. A few bulbs scattered here and there produce but little effect, but when planted in masses, or in small groups, they become at once grand and brilliant, and eclipse, in real variety of coloring and picturesque effect, almost any other flower. Our collection is unusually fine, embracing all the choicest varieties.

EARLY DWARF DUC VAN THOLL TULIPS.

The Duc Van Tholls are admired for their neat dwarf habit of growth, and brilliant colors. They are the earliest of all Tulips, and are especially adapted for pot culture, for winter blooming. The best effect is produced by planting in large pots, six, twelve, or more bulbs of the different colors.

For early flowers out of doors, they can also be highly recommended, and produce a pretty effect when planted in masses. The varieties are all single, except the Double Red, which

is red, yellow bordered, and very attractive.

THE CROCUS.

As one of the earliest ornaments of the flower garden, it is a universal favorite, being neat, dwarf and compact, and varied in all the essential shades of color for producing harmony of effect. The principal adaptation of this bulb consists in its suitability for planting near the edge of flower borders, etc., so as not to require removal, or in forming lines or edges entirely of such, which, after blooming, may be removed; as the leaves show maturity of growth by fading in color.

The principal months for planting are October, November and December, in ordinary rich garden soil, placing the bulbs about two inches deep, and four to six inches from the edge; each group of six to eight bulbs being planted in its own relative color, or in blended varieties. These improve for some years if not dis-turbed. To secure a succession of blooms in pots, com-

mence early in the first-named month with six or eight bulbs in each well-drained pot, using the same rich soil, and planting about an inch deep, and, thus planted, place the pots on a surface of ashes, covering them over one inch deep with soil, tar or dry leaf-mould, until the leaves appear through the soil, when they may be removed to the house.

SNOWDROPS

The pretty Snowdrop, "in habit white and plain," is the first of all flowers to herald the approach of spring. Long before any other flower, it shoots up its slender stem, and displays its white, drooping corols, while the spotless snow still covers the shady recesses of the garden. They flourish well in any soil, and bloom best if not transplanted oftener than every three years. Being dwarf, they should be set near the edge of walks, where they show to advantage. They also flourish well in sand or moss, or in pots or baskets.

PER DOZ. PER 100. Double flowering 50 \$3.50 Single

LUCOJUM ÆSTIVUM (Large Snow-Flake). Flowers white, with bright green spots, resembling the Snowdrop, but much larger. 10 cents. \$1.00 per dozen.

LILY OF THE VALLEY,

One of the most charming of our spring flowering plants, whose slender stems set with their tiny bells, diffusing a delicious odor, have rendered it a universal favorite. Also largely used for forcing in the winter, for the cut-flower trade.

NARCISSUS,

All the varieties are extremely hardy and popular as a border flower. The Single Narcissus, of which we give an illustration, is quite an attracwhich we give an illustration, is quite an attractive flower, the central cup being of a very different color from the six petals. Some have the petals of a light yellow and the cup orange; others have the petals white and the cup yellow; while the Poet's Narcissus is snowy white, with red cup. The Double varieties are very desirable. The well-known Daffodil is of this class. Its true name is Van Sion. Orange Phanix is sometimes called Butter-and-Eggs, as the large petals are yellow and the short ones orange.

The Polyanthus Narcissus are very attractive and showy flowers, producing on a tall stem large clusters of white and yellow cup-shaped blos-soms, and are particularly admired for their sweet jasmine perfume; they contrast finely with the Hyacinth, for garden, pot, or glass culture,

and require the same treatment.

PÆONIA ARBOREA (Tree Pæonia). From \$1 to \$2, according to size.

TITIUM.

The Lily has always been a favorite flower. Some of the varieties are truly mag-nificent. The Lilium Aura-Japan, and called the "Golden-banded Lily." This is the king of lilies. The flower is from eight to twelve inches across, composed of six delicate white ivory petals, each being thickly studded with rich chocolate crimson spots, and having a bright golden band through the centre of each petal, with an exquisite vanilla-like perfume. Our Auratums are grown on our own nursery grounds, and are fine healthy flowering bulbs. As the bulbs acquire age and strength, the flowers obtain their maximum size and number. Upwards of twelve flowers have been produced on a single stem. It is perfectly hardy in dry soils, and should be planted five inches in depth; also admirably adapted for pot culture. The Japan Lilies, Lilium Lancifolium, are among the most beautiful and delightfully fragrant, im-parting a vanilla perfume, and are suited for either pot

LILIUM AURATUM (GOLDEN-BANDED LILY).

culture or the garden; their period of blooming is during the months of July and August. Our list will be found to embrace all the best and leading varieties. They are all hardy, and the bulbs can be planted either in the autumn or spring, although autumn is preferable; and a covering of manure will be found beneficial, but must be removed early in the spring. The ground should be thoroughly drained for Lilies

DREER'S GARDEN CALENDAR FOR 1879. PUBLISHED BY JANUARY 1st,

Is designed to furnish brief practical directions for the cultivation of vegetables, fruits and flowers; also descriptive lists of the best and newest varieties, with numerous engravings and illustrations. Will be mailed to all applicants.

GREENHOUSE BULBS AND TUBERS.

ACHIMENES,

Showy flowering greenhouse bulbs, blooming profusely from May to October; are most effective when four or more bulbs are planted in each pot; require light, rich soil, plenty of air, and slightly shaded from the sun.

NAMED VARIETIES. 30 cents. \$3 per dozen. Mixed varieties. 20 cents. \$2.00 per dozen.

AMARYLLIS.

Splendid flowering bulbs, suitable for the greenhouse or room culture. They should be grown in pots, well drained, in a soil of equal parts of peat, leaf-mould and loam. They are showy lily-shaped flowers, producing from two to four on a stalk, and bloom early in the spring.

AULICA. Dark crimson, shaded green... \$2.50 VITTATA. White, striped with bright JOHNSONI. Scarlet, striped with white; very large bloom PRINCE OF ORANGE. Bright orange;

with red..... Hybrids of Vittata, red ground, striped 1.25

CALADIUMS.

This class of beautiful variegated foliage plants, margined and delicately traced with various rich colors, and elegantly spotted and mot-tled, are exceedingly handsome when alone or intermingled with other plants. As a decorative plant, they are unequalled, for the greenhouse or conservatory in the summer months. They require a moist, warm temperature; great care must be taken in their earlier stages of growth, to prevent decay of the tubers, or damping off. tubers can be best preserved during the winter in charcoal dust in a warm room, and must be started, in the spring, in a warm house or hot-bed with bottom heat; also do well planted in a shady situation out of doors in June.

30 cents. \$3.00 per dozen.

AUBER. Green, spotted, white and pink. BARON ROTHSCHILD. Green, spotted and veined with orange crimson.

BELLEYMEI. White, mid-ribs rose. BELLEYMEI. Green, mottled with white. BICOLOR PICTURATA. Arrow-shaped leaf, with rosy-crimson centre.

BICOLOR SPLENDENS. Deep crimson, with broad green margin.

BOHEMICUM. White with gray and pink. BRONGNIARTI. Large green and crimson. DUC DE RATIBON. Green shaded white,

with crimson spots. ENCKEI. Green, spotted with pink. ENDLICHERIANUM. Green, large rose centre. HEMATOSTIGMA. Green, crimson centre.

HERCULES. Gray centre, and red spots. HOULLETTI. White, gray and green. LAUCHEANA. Metallic green. MAXIME DUVAL. Green veined and spotted

with crimson.

MEYERBEER. White, mid-ribs red. MILTON. Red veins, gray centre, crimson spots.

NAPOLEON III. Green, crimson centre.

NEWMANI. Green, spotted rose. REINE VICTORIA. Dark green, spotted with REINE VICTORIA. white and crimson.

ROSSINI. Pale centre, pink ribs, red spots. RUBRA MACULATA. Green, orange spots.

WIGHTI. Light green, crimson and white spots.

ALOCASIA JENNINGSI.

This magnificent plant requires similar treatment to that given to Caladiums. It grows to a height of two feet or more, producing leaves eight to ten inches long, and nearly as wide. The ground color is glaucous green, set off with large oblong blotches of black. 25 cents. \$2.50 per dozen.

CYCLAMEN.

Few plants are more showy than the Cyclamen; blooming in the winter and early spring months in the greenhouse, the flowers being singular in shape, of various colors, with beautiful foliage. The soil should be very light and rich, containing a good part of peat and sand, with well-rotted cow manure. They require frequent watering while growing.

COUM. Bright crimson, blotched with violet.....
EUROPEUM ALBUM. Pure white.....
EUROPEUM ROSEUM. Rose colored..... 50 30 30 HEDERÆFOLIUM RUBRUM. Rosy purple; large 50 50 40 centre. \$4 per dozen..... 50 60 60

Very large white flowers, violet eye......1.00 Persicum Giganteum.

GLOXINIA.

A beautiful early summer-flowering plant for the greenhouse or conservatory, with large bell-shaped flowers, of the most delicate and brilliant colors. There are two varieties, one with erect or upright flowers, and the other with drooping or pendulous ones. The tubers should be planted in February or March, in a rich, light soil, and kept in a warm, moist atmosphere. A selection of the best and latest introductions. 30 cents. \$3 per dozen.

IXIA.

The best season for planting these beautiful flower-bulbs is during the autumn months, for early spring blooming; being small, they are most effective when planted in stores of three, four, or six in each pot of four or six inches in diameter, they are too small to grow as single specimens

Named varieties. Each DOZ. 10 \$1.00 Mixed varieties. Each DOZ. 8 80 OXALIS.

These are profuse bloomers, and very attractive in the greenhouse or conservatory during the winter. Plant three or four bulbs in a pot; the pots should be kept near the glass to prevent the foliage from growing too long, and require frequent watering while growing.

EACH. DOZ. Named varieties....... 10 \$1.00 | Mixed varieties....... 8

SPARAXIS.

A beautiful class for greenhouse culture, flowering from February until May. Their treatment is similar to the Ixia.

EACH. DOZ. EACH. DOZ.

MISCELLANEOUS VARIETIES.

For growing in pots for the greenhouse or conservatory.

SUMMER AND AUTUMN-FLOWERING

BULBS AND TUBERS,

For Planting in the Spring.

Bulbs ready for delivery in October, and planted from April to June.

AGAPANTHUS.

A noble plant, belonging to the bulbous-rooted section, with evergreen foliage. A large plant, under good treatment, will frequently send up a flower stalk three feet high, crowned with a heal of twenty or thirty flowers, which come into blossom in succession. It blooms during the summer, and forms a fine ornament to an architectural terrace, or a lawn.

| | EACH. | |

| | gated foliage 1.00 | |

AMARYLLIS.

FORMOSISSIMA (Spreikelia). Commonly known as the Jacobæa Lily. Beautiful crimson-velvet colored flowers, having a most graceful and charming appearance, flowering about the first of June. 25 cents. \$2.50 per dozen.

VALLOTA PURPUREA SUPERBA. Somewhat of a misnomer as regards color, for the flowers are of a brilliant scarlet, resembling the Amaryllis, the bulb throwing up its strong stems about one foot high, with from five to eight of its lily-like flowers; very ornamental for bedding out, or cultivation in pots. Unlike many other bulbs, it requires no season of rest, but can be kept constantly in a growing condition. The soil should be equal parts of peat, leaf-mould, and loam, and care taken not to overpot, as they flower better when pot-bound. Price from 50 cents to \$1.00, according to size of bulb.

VALLOTA PURPUREA.

ANEMONE.

A charming flower, with brilliant colors, and exceedingly rich stripes; both double and single are equally desirable. To be planted in the open ground in early spring, and bloom in July. Also good for pot culture in the house, if planted in November or December.

DOUBLE ANEMONES.

8 cents each. 80 cents per dozen.

ADMIRAL ZOUTMAN. Blue.
AGNARIUS. White; very large.
COULEUR DE SANG. Bright searlet.
DUCHESSE DE LORRAINE. Red; large flower.
FEU SUPERBE. Dazzling fiery red.
L'ECLAIRE. Large, very fine scarlet.
ORNAMENT DE LA NATURE. The best dark blue.
REINE DES PAYS-BAS. White and rose.
Mixed varieties. 5 cents. 50 cents per dozen.

SINGLE ANEMONES.

8 cents. 80 cents per dozen.

Scarlet.
HORTENSIS. Red.
HORTENSIS. Violet.
Mixed varieties. 5 cents. 50 cents per dozen.

ANEMONE FULGENS. Flowers large, of a dazzling vermilion. 30 cents. \$3 per dozen.
ANEMONE JAPONICA. Dark rose. 20 cents. \$2 per dozen.
DOUBLE FRENCH CHRYSANTHEMUM FLOWERED. Splendid var. mixed. 20 cents. \$2 per doz.

AMORPHOPHALLUS RIVIERI.

A new Ariod, of easy out-door culture, producing a solitary palm-like leaf on a rose and olive-green speckled stem, two to three feet high. The tubers, maturing the second year, produce flowers like the "Calla Lily;" the outside of a similar color to the leaf stalk, the inside deep blood-red, veined with black. Tubers are planted out in May, and kept over winter like Dahlia roots. Tubers, from 25 to 75 cents each.

CANNA (Indian Shot Plant).

The very great improvement in this ornamental class of tubers, obtained of late years in the large foliage, beautifully shaded with various bronzy tints, as well as in the richlycolored flowers of more than double the size of the old varieties, makes this class very desira-ble, particularly for our hot climate. The roots can easily be wintered in a dry cellar.

The following list has been selected as the best from a very large collection of new and

old varieties.

25 cents. \$2.50 per dozen.

ADELE LEVALOIS. Short broad foliage, rich crimson flowers. Bright bronzy maroon

ANNEI DISCOLOR.

foliage. BIHORELLI SPLENDENS. Flowers large, crimson scarlet; foliage with dark purple shade.

BONNETI EXCELSA. Olive-green and purple foliage; very large orange-red flowers. BONNETTI FLORIBUNDA. Flowers large,

orange red; foliage shaded purple. Brenningsi. Broad green foliage, ornamented with broad bands of yellow; constant variegation.

COQUETTE. Green and bronze foliage, the largest orange flowers. DR. GROMIER. Dark green foliage; large deep crimson flowers; height 5 feet.

MARECHAL VAILLANT. Rich maroon foliage.

MONS. ALLEGATIER. Large green and bronzy purple foliage; very large orange-red flowers; height 4 feet.

NIGRICANS. Flowers large vermilion; dark-leaved variety.

ORNEMENT DU GRAND ROND. Bronzy green foliage, large scarlet flowers; 5 to 6 ft.

PREMICES DE NICE. Tall green leaves; golden yellow flowers.

PRESIDENT FAIVEE. Foliage splendid bronzy maroon, flowers large brilliant crimson.

RENDATLERI. Flowers large orange; foliage green and purple.

SOUV. DE BARRILLET-DESHAMPS. Green shaded with maroon; large crimson flowers.

SUPERBA. Large dark-green foliage; orange-crimson flowers; height 4½ feet. 30 cents. TRICOLOR. Flowers blood red; foliage tricolored green, red and creamy yellow; dwarf. VICTOR LEMOIN. Dark bronzy green leaves; very large orange flowers; height 5 feet.

COLOCASIA, OR CALADIUM.

ESCULENTUM. One of the most beautiful and striking of the Ornamental Foliage Plants in cultivation, either for culture in large pots, or for planting out upon the lawn; it will grow in any good garden soil, and is of the easiest culture; when full size, it stands about five feet high, with immense leaves, often measuring four feet in length, by two and a half in breadth; very smooth, of a light green color, beautifully veined and variegated with dark green. The root should be preserved in dry sand, in a cellar, during the winter, in a very warm, dry place. 25 to 50 cents. \$2.50 to \$5.00 per dozen, according to size of bulbs.

BATAVIENSIS. With deeper green foliage than the above, and dark red stems. 25 to 50 cents.

JAVANICA. Dark bluish green foliage. 50 cents.

IBSONI. A very striking novelty in the style of C. Esculentum; large leaves, nearly black, marbled GIBSONI.

with green; a splendid plant for either pot culture or planting out. 25 to 50 cents.

DAHLIA,

Of this attractive flower we have several hundred varieties, and are constantly adding all the newest and best as they are offered, and rejecting older and inferior kinds. Our consection has received numerous prizes at the exhibitions of the Pennsylvania Horticultural Society. We are now enabled to offer white and yellow varieties for which there has been an unusually great demand in quantity. The roots will be ready for delivery about the ist of November.

Single roots, 25 to 50 cents each. For varieties and description, see "Dreer's Garden Culombur."

FRENCH HYBRID GLADIOLUS.

They are the most stately and effective of the whole genus; being of a robust erect growth, with green sword-shaped leaves and magnificent flower seapes, rising from three to five feet in height. The colors comprise the most brilliant of orange, scarlet and vermilion tints, upon yellow and orange grounds, including a graduated scale of intermediate shades, from white, with rosy-blush and salmon rose tints, to a salmon red and nankeen; from blush-white, with purple crimson throat and marginal streaks of pink, to light rosy salmon grounds, with flakes of deep carmine. A succession of bloom may be had from July to September by planting at intervals from April to June, reserving the strongest bulbs for the latest planting. Their culture is very simple; they will grow in any ordinary garden mould, but succeed best in good earth, manured with well-rotted manure, and in a sunny situation. The bulbs are taken up in the fall and placed in a dry cellar, protected from frost.

GLADIOLUS-IN ASSORTMENTS.

Where the choice of varieties is left to us, the purchaser will generally fare better as to quality and price—as we have often a large stock of some of the finer and high-priced varieties, which we can include in the following assortments.

MADEIRA; OR, MEXICAN VINE,

10 cents. 75 cents per dozen.

Of rapid growth; suitable for covering arbors and trellis work. Flowers feathery white, with a fragrance resembling Mignonette. Also known as the Mignonette Vine.

TIGRIDIA; OR, TIGER FLOWER.

15 cents. \$1.50 per dozen.

Native of Mexico; producing flowers of exquisite beauty and singularly curious shape, the colors gorgeous and perfectly contrasted. Planted in masses, they make a beautiful effect, blooming from July to October. Preserve the bulbs during the winter in a dry place. CONCHIFLORA. Orange, with crimson spots. PAVONIA. Rich scarlet, spotted with yellow.

DOUBLE TUBEROSE.

One of the most delightfully fragrant and beautiful of the summer-flowering bulbs, throwing up tall spikes of double white flowers, two to three feet high, which remain in bloom a long period. It is now an indispensable article in making up a bouquet or basket of flowers at any time during the year, as, by skilful management, a succession of flowers can be obtained. For early flowers, they can be started in February or March, in the greenhouse or hot-bed, and for a succession they can be planted at intervals as late as July. For flowering in the open borders, they can be planted about the 1st of May; they will then bloom in September. The bulbs we offer this season are very fine, and certain to flower.

1st size -10 cents each. \$1 per dozen. \$5 per 100. 2d size-8 cents. 80 cents per dozen. \$4 per 100.

NEW DWARF "PEARL" TUBEROSE.

The individual flowers are much larger than the common variety; desirable for pot culture and forcing, as a bouquet flower. 10 cents. \$1.00 per dozen. \$6 per 100.

VARIEGATED-LEAVED TUBEROSE.

A new variety, with variegated foliage, striped with light yellow; very attractive when planted in masses. Flowers single and very fragrant. 20 cents. \$2.00 per dozen.

TRITOMA; OR, RED-HOT POKER.

A splendid half-hardy summer and autumn flowering plant, with stately flower scapes and magnificent terminal dense spikes of rich orange-red flower tubes. They may be taken up in the fall and potted, and placed in a cool greenhouse, pit, or cellar.

UVARIA GRANDIFLORA. The finest variety. For blooming plants, from 25 cents to \$1, according to size.

RANUNCULUS.

For symmetry of form and brilliancy of color in almost all the varieties and hues which are recognized among flowers, the Ranunculus is probably unequalled by any other; for its culture it requires a good depth of rich garden soil. The tubers are rather tender, and should be planted out of doors in early spring; they bloom in June. Also, can be grown in pots, and forced into early bloom in the greenhouse, if planted in November or December.

TURKISH.

6 cents. 60 cents per dozen. BLACK TUREAN. Blackish brown. HERCULES. Pure white. MERVEILLEUSE. Orange yellow.

Yellow and black. PRINCE DE GALITZIN. ROMANO. Bright dazzling red.
SERAPHIQUE D'ALGIER. Light yellow.

TURBAN GRANDIFLORA. Variegated. Mixed varieties. 5 cents. 50 cents per dozen.

PERSIAN.

8 cents. 80 per dozen.

Bella Donna. Violet spotted. CRAMOISY SUPERBE. Crimson, large flower. COMMODORE NAPIER. FEUERSAULE. Red and yellow. DOUBLE FRENCH. Splendid double varieties; colors mixed. 10 cents. \$1 per dozen.

Crimson, large flower.
Yellow with brown.
d yellow.

JAUNE SUPREME.
REINE VASTHY.
White and rose.
Rose des Dames.
Rosy.
Mixed varieties. 5 cents. Deep yellow; extra. Mixed varieties. 5 cents. 50 cents per dozen.

Ornamental and Winter-Blooming Plants,

SUITABLE FOR THE GREENHOUSE, CONSERVATORY, OR WINDOW-GARDEN.

(For sorts not noted here, see "Dreer's Garden Calendar.")

ABUTILON.

Ornamental leaves, flowering freely in the greenhouse or garden. 30 cents each.

AUREUM NIVEUM VARIEGATUM.

BOULE DE NEIGE. DARWINI.

JOHN HOPKINS. VEXILLARIUM PICTUM.

ACACIA.

Plants of graceful habit and abundant bloomers; leaves useful for decoration. 50 cents

CULTRIFORMIS. LINEARIS. LOPHANTHA.

PARADOXA. PUBESCENS. \$1 to \$2.50.

ACALYPHA TRICOLOR.

Large foliage, irregularly mottled with crimson and flamed with red. 75 cents.

AGAVE.

No plants are more decorative or more effective than these; and for the conservatory in winter, or lawn and garden in summer, presenting a highly picturesque as well as tropical aspect.

AMERICANA, of all sizes. 50 cents to \$10.
VARIEGATA, of all sizes, variegated. \$1 to \$10.

VERSCHAFFELTI. One of the finest and rarest varieties, with short, almost heart-shaped leaves, and black spines. \$1.00 each. Large, \$5.00.

ALLAMANDA.

Of sorts. 50 cents to \$1.

ALOCASIA.

MACRORHIZA, large green leaves. 50 cents. VARIEGATA, mottled green and white leaves. \$1.00. METALLICA, large, dark, bronzy leaves. \$1.

ANTHURIUM SCHERTZERANIUM.

Producing beautiful searlet floral spathes, each of which remains two to three months fresh and brilliant. \$1 to \$2.

ARALIA.

GUILFOYLI. A very showy plant of erect habit; green foliage, margined with white, deeply serrated. \$1.50.

PAPYRIFERA. An effective and picturesque plant, with very large palmate leaves on long stems, covered all over with a silvery pubescens. Fine for sub-tropical gardens. 25 to 50 cents.

ARDISIA.

CRENULATA. A very ornamental greenhouse shrub, bearing red berries. 25 to 50 cents. With berries, 75 cents to \$1.

CRENULATA ALBA, white berries. 50 cents.

ASPIDISTRA ELATIOR.

VARIEGATA. A desirable variegated-leaved plant for baskets, ferneries, etc. 50 cents. PUNCTATA (rare). \$1.

ASTILBE JAPONICA (Spirea Japonica).

This is one of the prettiest of herbaceous plants, growing about eighteen inches high, with neat foliage and dense spikes of pure white feather-like flowers. For winter forcing and flowering it is very valuable; the foliage, as well as flowers, being alike ornamental. 25 cents to \$1.

AUCUBA JAPONICA.

Blotched, dark green and yellow foliage, 25 to 75 cents.

AZALEAS.

Too much cannot be said of this splendid and striking flower. During the flowering season, which is April and May, the heads are covered with attractive and beautiful blooms, which vary in color from the most delicate white to brilliant rose and carmine, spotted and striped. Of late years they have become popular window-plants, and most justly too; for, with their profuse masses of flowers, they make every window or balcony a bower of bloom. For a succession of bloom, which can be kept up from February to May, store in the cellar, and bring them one by one to the window, where they will be forced into bloom. We have a splendid collection of the finest and rarest varieties. Good plants, 50 cents. §5 per dozen.

TRAINED SYMMETRICAL HEADS. Strong. \$1. \$10 per dozen.
Extra strong and fine. \$2. \$20 per dozen.

A. AMŒNA. A profuse flowering variety; bright crimson flowers. 25 to 50 cents.

BEGONIA (Ornamental-leaved).

Soft-wooded plants, of great beauty. In great variety. 30 cents. \$3 per dozen.

BEGONIA (Winter-flowering Varieties).

Very valuable sorts, constantly in bloom, of dwarf habit and glossy leaves. 30 cents. \$3 per dozen.

FOLIOSA. Light pink flowers. MULTIFLORA. Rosy pink blossoms.

SANDERSONI. Scarlet flowers. WELTONIENSIS. Waxy pink flowers. WELTONIENSIS ALBA. White flowers.

BLETIA TANKERVILLIÆ.

An easy-growing orchid, producing large showy flowers in long spikes. 75 cents to \$1.50.

BOUVARDIAS.

Large plants. 35 cents.

HUMBOLDTI CORYMBIFLORA.-1/2 natural size.

HUMBOLDTI CORYMBIFLORA. The present variety will be found the greatest acquisition yet made to this now charming tribe of plants. Its free growth, large flower truss, pure snow-white color and rich aromatic odor by day and night, produced at a season when flowers are most valuable and most sought for, leaves out no feature that is essential to a miscellaneous group of autumn and winter-flowering conservatory plants. The splendid flowers of the purest white are borne on corymbs containing 8 to 10 and more; tube nearly three inches in length, and measuring across the florets about 13 inches (our own measurement), exhaling a mild orange-like fragrance while in bloom.

DAVIDSONI. One of the best white-flowered varieties. ELEGANS. Salmon-scarlet. Extra large and fine.

LEIANTHA. Fine scarlet.

CALLA.

ÆTHIOPICA. This favorite "Lily of the Nile" should be in every collection, the flowers being particularly useful for Christmas and Easter decoration. 25 to 50 cents. ETHIOPICA NANA. A dwarf-growing variety similar to the above. 50 cents.

CAPE JASMINES

Are desirable for their pure white and delightfully fragrant flowers; blooming in May, June and July, at a season when pure white flowers are scarce, they are highly prized in Brides' Bouquets, Wreaths, etc. 25 cents to \$1.

GARDENIA FLORIDA. FORTUNI. G. CAMELLIA FLORA. G. RADICANS.

CAMELLIA JAPONICA.

The following list comprises the most popular varieties of this favorite winter-blooming plant. The prices vary, according to size, from 75 cents to \$10 each.

DIEFFENBACHIA.

BAUSEI, BARAQUINI. \$1.00. BRASILIENSIS. \$1.50.

PICTA. 25 to 75 cents. WEIRI. \$1.00.

DRACÆNA; or, Dragon Tree.

One of the most desirable of our ornamental foliage plants for decoration, either in or out-doors, as it does not appear to suffer under the dry atmosphere of rooms; and, in a partially-shaded situation, stands remarkably well during the summer out of doors. Its bright-colored crimson and scarlet-shaded foliage renders it very useful for the window-garden, planted as a centre-piece in a Rustic stand, Jardinier, or Window-box, or for summer decoration in vases, ornamental beds, etc. It thrives best in a light rick soil, composed of leaf-mould, sand, loam, and thoroughly decomposed manure. The color of the foliage is improved by mixing small bits of charcoal with the soil, and using the same also for drainage.

AUSTRALIS. Light green drooping foliage, | very ornamental. 50 cents.

Violet and maroon, weeping COOPERI.

habit. 75 cents.
FERREA. Crimson maroon foliage. 50 cents to \$1.

FERREA STRICTA. 75 cents.

GUILFOYLEI. Green striped. \$1 to \$2. Indivisa. Narrow dark green foliage.

NIGRESCENS. Greenish-black foliage. \$1. RUBRA. \$1.

NIGRESCENS ELEGANS RUBRA (New). A very neat and compact-growing variety, with short bronzy-green crimson leaves. 50 cents.

TERMINALIS. The most useful variety for decoration. Extra strong plants, \$1. Large plants, 20 inches high, extra fine, 50 cents. \$5 per dozen. Fine plants, 12 inches, 30 cents. \$3 per dozen.
Veitchi (Cordyline Speciosa). Long, nar-

row, serrated, recurving foliage; pale violet

midrib. \$1 to \$3.

EPIPHYLLUM (Cactus).

These are both curious and beautiful plants; very showy flowers. Grafted plants on the Pereskia stock are more desirable than on their own roots. Of sorts including varieties of Night-blooming Cereus. 50 cents to \$1.

ERANTHEMUM PULCHELLUM.

A pretty blue-flowering plant, blooming in April. 50 cents.

EUPATORIUM RIPARIUM.

One of the most valuable of winter-flowering plants, recently introduced, of dwarf habit, and remaining a long time in flower. 25 to 50 cents.

EUPHORBIA.

Splendid plant for winter-blooming, valuable for cut flowers in baskets and decorating. 50 cents to \$1,

JACQUINIFLORA. Producing racemes of bright scarlet flowers.

Poinsettia Pulcherrima. Stalks tipped with clusters of bright scarlet leaves. Poinsettia Pulcherrima Carminata (New). Tipped with carmine leaves. \$1. Poinsettia Pulcherrima Plenissima. (New) \$1.00 to \$2.50 each. See page 31.

FICUS.

A fine old plant which is becoming very popular in this country, not only in the hothouse, but as a decorative plant for the drawing-room or flower-garden. Its thick leathery leaves make it especially valuable in consequence of doing perfectly well in the dry air of inhabited rooms; and this will enable many to enjoy a fine-leaved plant in house who have no glass-house.

CHAUVERI. \$1.50. | PARCELLI. \$1.
COOPERI. \$1.50. | RADICANS. \$1.
ELASTICA (India Rubber Plant). 75 cts to \$2. | REPENS (creeping). 25 cents.

FUCHSIA.

We offer a choice collection of single and double corolla varieties. The varieties marked with a * have double corollas. Price, 30 cents. \$3 per dozen. For description and other

varieties, see "Dreer's Garden Calendar."

SUNRAY. A very showy novelty, the foliage of which, in the spring, is of a rich bright e timson, white and bronzy green; fine form.

*ALPHA.

ARABELLA. CARL HALT. CONSPICUA.

HELIOTROPES.

The Heliotropes are among the most popular flowers, indispensable for winter bouquets. 20 to 35 cents, according to size.

BOULE DE NEIGE. Blush white. CHIEFTAIN. Lilac, large truss. ETOILE DE MARSEILLE. Bluish purple. GRANDIFLORUM. Pale lilac.

JULIETTE. Bluish lilac. MR. LIVINGSTONE. Bluish violet, NELLY. Blush white. VIOLET QUEEN. Violet.

HOYA CARNOSA.

The old and popular Wax Plant, excellent for dry dwelling-rooms. 25 to 50 cents.

HYDRANGEA HORTENSIS.

A well-known and favorite old plant, producing large heads of pink flowers in great profusion; the color of which can be changed to a beautiful blue by mixing the iron scales or sparks from a blacksmith's shop among the soil. It thrives best in a shady situation with a plentiful supply of water; with slight protection it has endured the severest winters around Philadelphia. 25 cents to \$1.

HYDRANGEA HORTENSIS VARIEGATA. An exceedingly ornamental plant, with beautifully-variegated foliage; fine for shady positions. 50 cents to \$1.

IMPERATRICE EUGENIE. Rose, shaded with white and blue. 25 to 50 cents.

HORTENSIS OTAKSA. A Japanese variety lately introduced; beautiful large glossy foliage, large heads of pale pink flowers. 25 to 50 cents.

PANICULATA GRANDIFLORA. A hardy variety lately introduced, of great merit. Elongated flowers of snowy white, often a foot long. 50 cents.

SPECIOSA. A new variegated variety, cream-colored leaves, broad green margin. 75 cts. STELLATA PROLIFERA. A new and rare variety from Japan. Double rose-colored flowers changing to a coppery shade. 50 cents.

Thos. Hogg. The new pure white Hydrangea, good flower and growth. 25 cts. to \$1.

IMANTOPHYLLUM.

MINIATUM. Resembling the Amaryllis in foliage; bearing large clusters of conspicuous buff orange-colored flowers. 50 cents to \$1. CRYTANTHIFLORA. \$1.

IRIS FŒDIDISSIMA.

A highly ornamental and rare variety of "Flag," graceful foliage, ornamented with bands of creamy-white; an excellent pot-plant. 50 cents.

IXORAS.

Exceedingly showy plant, bearing large clusters of splendid flowers in white, rose, orange, etc., which remain a long time in bloom during the winter and spring months.

AMBOINENSIS. \$1. BLANDA. White. 50 cents. COCCINEA. Crimson. 50 cents. COLEI. \$1.

CROCATA RUTILANS. Salmon. 75 cents. JAVANICA. Orange. 50 cents. ROSEA. Rose. 50 cents.

JASMINUM GRANDIFLORUM.

This favorite variety, known as the Catalonian Jasmine, is a valuable winter-blooming variety. The flowers are pure white, and deliciously fragrant. 25 to 50 cents.

J. SAMBAC. Very fragrant. 50 cents.

J. SAMBAC, fl. pl. 75 cents.

LAGERSTRŒMIA.

INDICA. The old and popular Crape Myrtle, pink flowers. 25 to 50 cents. INDICA ALBA. A new white Crape Myrtle. 25 to 50 cents.

MAGNOLIA.

FUSCATA. A favorite green-house shrub, fragrant flowers. 75 cents to \$1.50.

MAHERNIA ODORATA.

Sometimes known as Honeybell; small yellow bell-shaped flowers, very fragrant. 25 to 50 cents.

MUSA ENSETE.

The noblest of all plants is this great Abyssinian Banana. The fruit of this variety is not edible, but the leaves are magnificent, long, broad, and massive, of a beautiful green, with a broad crimson mid-rib the plant grows luxuriantly from 8 to 12 feet high. It is used with success in the parks of Europe, and our experience last summer on our own grounds proves that it stands the rain and storms without laceration. In our hot summers it luxuriates and attains gigantic proportions, producing really a tropical appearance, and should find a place in every collection, where there is a conservatory or greenhouse, for planting therein during the winter, from the fact of its presenting an ornamental appearance among the other plants; and being easily removed, presents the same grand effect on the lawn, terrace, or flowergarden, when bedded out in the summer. Those not having the above convenience, by cutting the leaves off, can store it in a light cellar during the winter, with a covering of soil, or planted in a tub, water sparingly. When planted out in the summer with good drainage it cannot receive too much water. We have been successful in raising a fine lot of these plants from seed, which enables us to place this splendid plant within the reach of every one.

Extra specimens, 4 years old. \$20. Large plants, 5 feet high. \$5. Small plants, 1 to 2 feet high. \$3.

MARANTAS.

The Marantas are all showy and beautiful plants, admirably adapted for the window-box. Wardian case, etc.

BARAQUINI. 50 cents. BICOLOR. 50 cents. FASCIATA. 50 cents. LINDENI. \$1.50. MAKOYANA. 50 cents. VAN DEN HECKEL. 50 cents. MICANS. 25 to 50 cents. PRINCEPS. 75 cents. REGALIS. \$1.50. ROSEA PICTA. \$1.50. 75 cents. REGALIS. \$1. ZEBRINA. 50 cents.

MYRSIPHYLLUM ASPARAGOIDES Smilax.

A climbing plant, unsurpassed in the graceful beauty of its foliage, and its peculiar wavy formation renders it one of the most valuable of all plants for vases or hanging baskets. For wreaths, festoons and dressing the hair, it has become a great favorite, and is extensively cultivated in Boston and New York for this purpose. 30 cents. \$3 per dozen. Extra strong, 50 cents.

MANDARIN ORANGES.

The favorite miniature orange. 50 cents to \$2. Myrtle-leaved orange, \$1 to \$2.

MIMULUS MOSCHATUS HARRISONI.

A new musk plant of stronger growth and larger foliage than the M. Moschatus: it produces large and showy bright yellow flowers, spotted with crimson. The foliage has the same agreeable fragrance as the old musk. Of easy culture and free flowering. 25 cents.

OLEA FRAGRANS.

A favorite greenhouse shrub, delightfully fragrant; the scent is sufficient to perfume a large conservatory. \$1. NEW OLEANDERS.

NERIUM ATROPURPUREUM PLENUM, 50 cts. N. New Double White, 50 cents, N. Flavium Duplex, 50 cents. N. Prof. Durand, 50 cents. N. Madona Grandiflorum, 30 cents. N. Punctatum Plenum, 50 cents.

extra strong. \$1. J N. PURPUREA PLENA. 30 cents.

PALMS.

The following is a select list of rare and handsome varieties, which we can recommend of easy culture for apartments, conservatory decoration, and vase plants during the summer:

ARECA AUREA. Golden stems. \$5. ARECA LUTESCENS. Fine yellow stems. \$3. ARECA RUBRA. Handsome red stems.

VEITCHI FOLIIS AUREO VARIEGATIS. A highly ornamental variegated variety of easy culture. Strong specimens. \$2 to \$3.

PITCAIRNIA SPLENDENS.

Pineapple-shaped leaf; very singular. Scarlet or pink flowers. 50 cents.

PLUMBAGO.

Free-flowering shrubs, producing flowers in great profusion.

ROSEA. Rose. 50 cents. ALBA. Pure white. 25 cents. CAPENSIS. Light blue. 25 cents. LARPENTÆ. Dark blue. 25 cents.

POINSETTIA PULCHERRIMA PLENISSIMA.

This remarkable Poinsettia is unquestionably the greatest acquisition in winter-flowering plants ever introduced. Its gorgeous bracts, reproduced in profusion from the repeated branchings of the flowering stem, form a massive head of brilliant color unsurpassed by any flowering plant in cultivation. "The Journal of Horticulture" of December 16th, 1875, announcing the flowering of the plant in Europe for the first time, remarks: "The head, which we particularly noted, was 16 inches in diameter, and from the base to the apex of the cone of drooping bracts was 11 inches in depth. The bracts in this head were fifty in number, arranged in seven separate cymes which had sprung from the primary base. The color is superlatively brilliant, as if a delicate tint of orange floated over the intense scarlet. imparting a more dazzling appearance than is possessed by the old species. If the designation, 'A Cone of Fire,' is applicable to any plant in existence, this is the one." Strong flowering plants. \$1 to \$2.50 each.

Poinsettia Pulcherrima. Stalks tipped with clusters of bright scarlet leaves. 50 cents to \$1.

Poinsettia Pulcherrima Carminata 'New'. Tipped with carmine leaves. 50 cents. Poinsettia Pulcherrima Major. Large round bracts. 50 cents.

PRIMULA (Chinese Primrose).

This florist's flower is held in great esteem, and one of the most desirable winter-blooming plants, flowering in great profusion during the winter and early spring months. Our stock is very fine. 25 cents. \$2.50 per dozen.

ALBA FIMBRIATA. White fringed, ALBA STRIATA, Striped. ROSEA FIMBRIATA. Rose fringed.

FIMBRIATA ERECTA SUPERBA. Vermilion. PUNCTATA ELEGANTISSIMA. Spotted.

KERMISINA PLENO. (Seedlings.) Double, rosy carmine. 50 cents. ALBA FIMBRIATA PLENO. (Seedlings.) Double, white fringed. 50 cents. FLORA PLENO ALBA. Double, white; fine for cut flowers, 50 cents. \$5 per dozen.

POMEGRANATES.

These beautiful plants, of dwarf symmetrical growth, can be advantageously used as bedding plants or for pot culture, which, with the facility of keeping over winter, makes them very popular plants. 25 to 50 cents.

PUNICA GRANATUM RUBRO PLENO. Double crimson; abundant bloomer. Albo Pleno. Double creamy white.

Legrellei. Double creamy white, edged aurora.

CAMPSIDIUM FILICIFOLIUM.

An elegant climbing plant from the Fejee Islands, resembling a climbing fern in growth, etc.; golden flowers. 75 cents.

DOUBLE TUBEROSE BULBS.

Grown in pots for winter blooming.

DOUBLE. Strong flowering bulbs. \$1.50 per dozen.

PEARL. The new dwarf-growing double-flowering variety. \$2.50 per dozen.

RHYNCOSPERMUM.

JASMINOIDES. A beautiful greenhouse plant, with glossy evergreen foliage, and masses of pure white Jasmine-like flowers, delightfully fragrant; in bloom about May and June. It is of a climbing habit, and presents a beautiful appearance when properly trained; is also a very desirable flower for bouquets, etc. 50 cents each.

VARIEGATA. Variegated foliage. 50 cents.

AUREA VARIEGATA (new). 50 cents.

RICHARDIA ALBA MACULATA.

A dwarf variety of the "Calla Lily;" flowers smaller, leaves covered with pure white spots. 25 cents.

ROSES.

Our collection of Roses is now admitted to be one of the most complete, having been enriched, by direct importation, with the latest popular sorts. The repeated award of the highest premiums by the Pennsylvania Horticultural Society is sufficient evidence of their merit.

EVER-BLOOMING ROSES cannot be secured unless the plants are kept in a vigorous growing condition. To derive the greatest enjoyment from rose-culture, beds should be prepared exclusively for their benefit, by throwing out the sub-soil and replacing with a good compost, so that the roots in running down may find nourishment.

A fresh loamy soil, enriched with well-rotted cow-manure, we have found the best, and

their fertility preserved by yearly top-dressing with well-rotted manure.

Our Roses are pot-grown on their own roots, and not forced into unnatural growth: being pot-grown renders them more desirable for sending to a distance; as they retain the ball of roots and soil, the purchaser runs no risk in transplanting. Their natural growth is likewise not checked, in planting out, by sudden changes of temperature in the spring; but the plants go ahead, giving perfect satisfaction in every way.

WINTER-BLOOMING ROSES.

Only certain varieties are adapted for this purpose, principally among the class of Tea, Noisette and Bourbon Roses. The following twelve are the best for winter flowering and forcing, grown in pots expressly for this purpose, selected especially for their free-blooming and fragrant qualities. \$5 per dozen.

AGRIPPINA. Deep crimson.

BON SILENE. Purplish carmine, orange shade.

CANARI. Yellow. CORNELIA COOK. Very large buds of per-

fect form; color, creamy white. DAVID PRADEL. Rosy illac.

ISABELLA SPRUNT. Sulphur, white shade. OLYMPE FRECINEY. White.

MAD. MARGOTTIN. Dark yellow, rose centre. MAD. DE WILLERMOZ. Creamy white. MARECHAL NEIL. Bright golden yellow,

large fine form. NIPHETOS. Purest white color, fragrant,

long, large buds.

SAFFRANO. Saffron yellow.

Souvenir D'un Amie. Large rose, very fragrant.

MARECHAL NEIL ROSE.

No yellow rose yet introduced equals Marechal Neil. The flowers are of the largest size, highly fragrant, and of the richest and deepest golden yellow, remaining in perfection several days. It is a vigorous grower, and a plant with several hundred blossoms is one of the finest objects among flowers.

We are able to offer an unusually fine and large stock of pot-grown plants.

Extra large plants. \$1. \$9 per dozen. Fine strong plants. 75 cents. \$6 per dozen. Good plants, 4 to 5 in. pots. 50 cents. \$5 per dozen.

LAMARK. Pure white. This variety, as well as M. Neil, are adapted to training on the rafters of the greenhouse. 50 to 75 cents.

CHOICE SELECTION OF HYBRID PERPETUAL ROSES.

40 cents. \$4 per dozen, except where noted. Extra size plants charged in proportion.

REGNERIANA. Giant-leaved; strong grower. 25 to 50 cents.

SPECTABILIS AUREA. Young growth veined with yellow; vigorous and hardy. 50 cents.

THE GARDENER'S MONTHLY AND HORTICULTURIST.

Edited by THOMAS MEEHAN and published by CHARLES H. MAROT, 814 Chestnut Street, Philadelphia, at \$2.10 per year, gives full instructions in the science and practice of every branch of gardening. It will pay any one to subscribe for it. Our friends and customers may send their subscriptions through us, if they prefer, and we will forward them to publisher.

GARDENERS.

Persons requiring the services of Gardeners will receive on application the names and addresses of such men we believe will give satisfaction; a register being kept for this purpose,

We also furnish the addresses of competent Landscape and Jobbing Gardeners, who will undertake large or small contracts.

SELECT LIST OF SMALL FRUITS.

In this list we have only introduced such varieties as we can safely recommend—they are all grown on our own nursery grounds, and can be relied on as genuine.

Dreek's Garden Calendar for 1879. PUBLISHED BY JANUARY 1st,

Is designed to furnish brief practical directions for the cultivation of vegetables, flowers and fruit, with numerous engravings and illustrations. Will be made to our patrons of last season without writing and to others on application.

BOUQUETS, CUT FLOWERS, ETC.

Among other evidences of refinement and culture is the increasing taste and demand for natural flowers, for the decoration of churches, dinner and supper tables, weddings, funerals,

etc. Flowers are acceptable and suitable for every occasion. We having the facilities are prepared to execute orders for every kind of floral device or decoration, having daily a supply at the store. They can be packed so as to carry safely for one or two days' journey by express. In sending your orders mention the latest time that will do to receive the flowers in your town; often we receive the orders after the time they are wanted, or after the express has gone, and then have no opportunity to send in time, hence the disappointment to those sending their orders. The following are a few of the many designs supplied to order:

BRIDE'S BOUQUETS. Of choice white flowers, with fine lace papers, or deep silk fringe, and cord and tassels, \$3 to \$10.

BRIDESMAID'S BOUQUETS. With papers and fringe to match in pink, blue, etc., \$2 to \$6.

HAND BOUQUETS. For parties, \$2 to \$5. BUTTON-HOLE BOUQUETS, 10 cents to 25 cents.

TABLE BOUQUETS, \$3 to \$10.

FLORAL DESIGNS. Of various sizes, \$5 to \$30.

BASKETS. Of fancy white and gilt work, willow or wire, \$5 to \$20.

PLATEAUX. Of elegant design, fancy white and gilt work, willow or wire, \$5 to \$20.

FANCY STRAW WORK. Of various designs, small and large, \$3 to \$20. FOR FUNERALS. Anchors, crosses, crowns, harps, wreaths, etc., of white flowers, each, from \$3 to \$15.

FRENCH IMMORTELLES, OR EVERLASTING FLOWERS.

In original bunches as imported, 60 cents. Bunches of assorted colors, .75. The following are the colors we import: yellow, green, orange-red, black, spotted, white, rose, solferino, erimson, lilac, blue, and violet.

GRASSES, BOUQUET MATERIALS, DESIGNS, ETC. ORNAMENTAL GRASSES AND EVERLASTING FLOWERS, of natural colors or dyed, have become almost indispensable articles for Florists' use, as well as amateurs in bouquet making and ar anging fancy and ornamental designs for Church, House and Parlor decorations. We are the following varieties, put up in small bunches all of one color, natural or dyed, as may be desired. Prices for large quantities, or by the pound, given on application.

Pampas Grass Plumes, of a beautiful silvery appearance, 12 to 30 inches long, exclusive of stem, retaining their beauty for years. Ours are the finest California Plumes. They can be sent by mail with safety, and when so ordered, 10 cents extra is required for postage on each plume. When received they should be gently shaken over the hot air of a furnace register, or in front of a fire for a few moments, which will develop their beauty. No. 1, Plumes. Per Doz. No. 3, Plumes Sc. WARDIAN CASE.

Made in the best manner and style, of black walnut. Very popular for the growing of plants, ferns, etc., during the winter. The plants being under glass are protected from dust, and require but little care, or water. A movable tray, lined with zinc, contains the pots, or earth; a perfect security against soiling carpets with dirty water; and being upon castors, may be moved about as desired (see figure). The legs can be disconnected, and the whole makes but a small package for transportation.

WOODEN TRELLISES FOR FLOWER-POTS AND GARDEN.
MISSE trellises are in all cases made of reeds painted green, instead of wire. They retain their shape and
form letter, are much lighter and equally durable. From their peculiar shape, large numbers can be put into a small space; thus making freight charges, even to most distant points, come very low.

BLACK WALNUT TRELLISES FOR POTS AND GARDEN.

These trellises are neatly made and are adjustable, and can be fastened at various widths or heights, according to the size of the plants to be supported; being oiled, are not injured by exposure to the weather.

THE FOUNTAIN PUMP.

Cheap, simple, and effective for watering and syringing plants; not liable to get cut of order, being made of brass, with India-rubber Hose to draw the water. \$5.00, \$8.50 and \$10.

NEW BELLOWS SYRINGE.

An invention for showering plants with insect-killing liquids-or clear water to cleanse house plants from An invention for showering plants with insect-kining inquities—or crear water to cleanse notice plants from dust and keep the foliage in a healthy condition; operating in the same way as the atomizer or spray-sprink-lers. The liquid is put into the brass globe and the bellows worked; a fine spray issues in a copious stream that is easy to reach every part of the plant and bedew it with insect-killing liquids; while in the ordinary methods a large share is wasted, with this only so much to just moisten the leaves and stems need be used.

ELASTIC PLANT SPRINKLER.

This is a very convenient article—and much preferred by the ladies, as it is so easily worked by pressing the rubber together with the hand—for sprinkling Bouquets and Window-Gardening Plants, to cleanse their foliage and keep them in a healthy growing condition, as well as for dampening clothes. It is made of Rubber, with a flat bottom and brass perforated, detachable top. \$1.00; by mail, postpaid, \$1.25.

WATERING-POTS, JAPANNED GREEN.

The French pattern is considered an improvement over the old style of Watering-Pots. It being oval, and the handle extending from the side to the opposite side on top, makes it convenient to handle, as it can be tilted to any desired angle without any extra exertion. We have these pots made of extra heavy tin with an iron-hooped base, to protect the sides and bottom from being indented, and japanned both inside and outside; the spout can be detached, and the rose or sprinkler put on for watering seedlings and fine plants.

4 quart.....\$2.00. 6 quart.....\$2.50. 8 quart.....\$3.00. 12 quart.....\$3.50.

We also have made especially for our trade the Round Watering-Pot of extra heavy tin, and iron-hooped bottom, japanned inside and outside, with two copper roses, fine and coarse.

. 8 quart.....\$3.00. 12 quart.....\$3.50. 16 quart.....\$4.00.

Common tin round Watering-Pots, japanned inside and outside.

4 quart\$0.85. 6 quart.....\$1.25.

SULPHUR BELLOWS; or, Floral and Vintage Duster.

For the extermination of Bugs, Worms, Insects and Mildew upon Grape-vines, etc. By the use of this implement the Flour of Sulphur can be evenly distributed over every part of the affected plant. \$2.50.

THE EUREKA FUMIGATOR.

After many unsuccessful attempts, we have found an effectual apparatus for the fumigating of green-houses, etc., doing away with the unpleasant duty of being smoked almost to death by the old mode, as they required constant attention to prevent the tobacco stems from burning to a blaze, and destroying the plants in getting rid of the pests that infest them.

This Apparatus is of simple construction, and not liable to get out of order. When once lit, it is self-acting, and may be left in the house with perfect safety, as flaring is an impossibility, and setting anything on fire out of the question, while all the material is completely consumed without waste and given off in a dense smoke, filling a house in a short time, thus ensuring the entire destruction of insect life. It can be used for the following purposes: Green-houses, Conservatories, I'lls, Frames, Hospitals, Ships, Poultry Houses, etc.; for destroying Vermin or Purifying Rooms. Directions for use sent with each Machine.

WHALE OIL SOAP.

An Effectual Remedy for Destroying Insects on Plants, Trees, Vines, etc. For washing down the bark of Trees, Grape Vines, destroying the Aphis or Plant Louse, Slugs on Roses, Thrips on Grape Vines, Mildew, Slugs on Pear Trees. In cans with directions, at 30 cents (by mail 60 cents), 60 cents, and 80 cents each. The last two are not mailable.

CARBOLIC ACID SOAP

Is the natural enemy of the low forms of insect life and parasites of every description. It kills and drives away *Lice, Flies, Fleas, Mosquitoes, Ants, Bugs, Worms, Grubs,* and all kinds of insects that annoy and destroy animals and plants. Per cake, 10 cts., by mail, 20 cts

GISHURST'S COMPOUND FOR DESTROYING INSECTS.

This is extensively used in England and on the Continent for the destruction of the Green, Brown, and Black Fly, Mildew, Thrip, Mealy Bug and Scale. Per box, 75 cents. By mail \$1.

BRIDGEFORD'S ANTISEPTIC LIQUID.

For the removal of all Parasites, Lichens, and Insects. Injurious to Plants, Trees,

Shrubs, Vines, etc.

This preparation is quite distinct from any other already before the public. It is quick, safe and effectual for the destruction of the Green Fly, Mealy Bug, Thrip, Red Spider, Mildev, Blight and Scale of every description. It contains nothing deleterious to plants, not even staining the leaves or leaving an unpleasant smell in the house. Its application is so simple that it can be used with safety by the most inexperienced hand. Instructions for application with each bottle. \$1.00 each.

PERUVIAN GUANO-(Pure).

For pot plants and garden purposes. When used as a liquid manure its effect is almost immediate. One pound to 20 gallons of water, and left stand until dissolved. Water the plants once a week with the solution. Put up in tin cans, with directions, 15 cents (by mail 40 cents), 30 cents, and 50 cents each. The last two are not mailable.

AQUILEGIAS. (Rocky Mountain Columbines.)

Among hardy perennial plants, these may be ranked as the finest, and deserving of cultivation in every garden.

CHRYSANTHA (Golden Spurred). Height 4 feet, producing freely an abundance of bright golden-yellow flowers. Per packet, 10 cents.

CERULEA. The flowers measure 3 inches in diameter; the outer five petals, as well as the long spurs, are of a beautiful violet blue; the inner petals are pure white, forming a pleasing contrast. Per packet, 10 cents.

BALSAMS.

Double White Camellia Flowered. Pure white flowers, very desirable as a bouquet flower. Per packet, 20 cents. \$2 per ounce, net.

CINERARIA FLORE PLENO. (New Double Cineraria.)

This is the beginning of a race of plants which for cut flowers will be unsurpassed. All the colors of the single exist in this new double variety. Per packet, \$1.

APPLE-SCENTED GERANIUM. (Pelargonium Odoratissimum.)

This delightfully fragrant and favorite variety can only be grown from seed, to form a fine plant. We have made a specialty of growing this variety, and offer fresh seed. Soak the seed twelve hours, and sow in light soil, keeping them moist until they germinate. Per packet, 25 cents; five packets for one dollar.

NEW ZONALE GERANIUM. Saved from our choice collection of the newest and best named

varieties. Per packet, 20 cents.

New Zonale Variegated Geranium. Saved from a celebrated collection of golden and bronze-colored varieties. Per packet, 50 cents.

OUR SUPERB DOUBLE HOLLYHOCKS

Are the admiration of all visitors. Seed saved from the finest double varieties. Seed sown early in autumn will produce plants for blooming next summer. Assorted colors, mixed, per packet, 10 cents.

DREER'S PREMIUM PANSY SEED. (Viola Tricolor Maxima.)

To insure large full blooms, it is necessary to sow in the autumn; full directions will accompany each paper of seed. Per packet, 25 cents; five packets for \$1. \$10 per ounce, net.
